Swedish designers take couture furniture to the next level at the Stockholm furniture fair 2012.

Stockholm, February 1, 2012

Design by Leftovers – pre-loved can be re-loved.

After success of the personal dining solutions and a glorious entry into the US market in 2011, the Design duo Netsman is taking on the Stockholm Furniture Fair and Design Week.

A small taste of what the ladies are currently designing and a selection of the new Couture furniture will be displayed.

Design by Leftovers has so far left their signature and impact on many of their institutions and are continuing their craftsmanship with the launch of a new collection.

The duo will be represented at the Stockholm Furniture fair in Hall A 04:05, from the 7th to the 11th of February 2012.

February 2012
